Mr. Sherman disapproved of the amendment as being a retaliatory measure, the only effect of which would be to add to the cost of tea. He had no excuse to offer for the course of Canada in imposing additional duties on tea and coffee imported from the United States, which course he regarded as perfectly ridiculous. Mr. Gorman stated as an objection to

THE KENNEDY-QUAY MATTER

THE KENNEDY-QUAY MATTER.

WASHINGTON, Sept. 6.—Mr. Kennedy, of Obio, is still withholding from the Congressional Record his remarks made in the bouse Wednesday concerning Senator Quay and the federal election bill. Mr. Kennedy says he proposes to print them, notwithstanding the advice of his colleagues that the remarks ought to be permanently suppressed. He has not yet been called to account for his breach of the rules and gross impropriety. Mr. Burrows, who is acting as speaker pro tem., says that as the words were not "taken down," and were not officially noticed at the time, the matter is beyond his jurisdiction. He were not officially noticed at the time, the matter is beyond his jurisdiction. He thinks they are, furthermore, beyond the jurisdiction of the house until they shall appear in the Congressional Record. When they are printed, as Mr. Kennedy promises they shall be, a resolution will no doubt be offered by one of the Penn-sylvania friends of Senator Quay to at least reprimand the indiscreet gentleman from Ohio.

Onio.

Mr. Boatner, of Louisiana, had prepared a resolution to expel Mr. Kennedy, and proposed to introduce it today, but his Democratic colleagues prevailed upon him to withhold it, and to allow the Republito withhold it, and to allow the Republi-cans to inaugurate the movement. No action will be taken, probably, until the return of Speaker Reed and Mr. McKinley. If Mr. Kennedy then proceeds to print his remarks it is likely that some action will be taken, but it is not probable that any Republican will introduce a resolution of expulsion. In view of the recent free and-easy exhibitions on both sides of the house, radical action of this kind would no doubt be considered extremely inconsistent. e considered extremely inconsistent.

Mr. Aldrich introduced a resolution which was agreed to, that the time for the consideration of the tariff bill be extended to Monday, when the abgar schedule is to be taken up.

A PACIFIC RAILROAD OUTLET. SPRINGFIELD, III. Sept. 6.—A letter re-ceived here yesterday from the inter-national news bureau of London and di rected to the representative of the United States central branch of that bureau. States central branch of that bureau, states that the October meeting of the directors of the Wabash railway system east and west of the Mississippi river will pass into the control of the Canadian Pacific Railroad company. President W. C. Vanhorne, of the Canadian Pacific, during the mouth of August, made a careful inspection of the Wabash system, inful inspection of the Wabash system, in-cluding its based terminals in Chicago, which he concludes as profitable for a continuous line from Detroit now reached by his company to St. Louis and the southern farm and fruit belt. This is a most desir-able property with an ultimate Pacific coast connection via the Frisco line and the Southern Pacific. It is understood that the deal is English with the aid of Holland bondholders.

in Detail.

Special dispatch to the Dally Eagle. GUTHRIE, Ok., Sept. 6 .- Saturday morning finds the clans in trepidation. Clark, of Payne county, one of the leaders of the Alliance, inadvertently made a remark at last night's session of the house, in the way of a threat that threw the Oklahoma fellows into a terrible state of excitement. He said substantially: "If you men don't stand to the agreement you know what to expect."

The boys are mending fences and they worked with a will into "the wee sma"

hours. In the consideration of the bill providing for the distribution of the government appropriation of \$47,000, sectional feeling showed its head and the local fights came near being reopened. Guthrie, Oklahoma City and Kingfisher have gone gunning. They have taken the brass band, decoy and net along. The ownership of these concomitants to hunting seems to be vested in all, as each uses any of them he sees fit. Kingfisher don't care much about the sport but will not allow a deer to bite him. When they return they will regale us with

some racy accounts of the trip.

It seems the constituency of Stillwater is favorable to Guthrie. The Payne county constituency instructs its representatives on the capital question tomorrow, as there will be a convention of Payne county citizens assemble in Guthrie. An expression of the sentiments of Payne county will probably be known then. Wearied by the excitement of the week the legislature hailed the hour of adjournment with Unaccustomed to being confined indoors ten hours a day, and to irregular habits of life, it will be a marvel if some of

the members do not succumb. There is some trouble in harmonizing the council and house bills on distribution of the \$47,000. Petitions are pouring in

from all over the country. The bill regulating the liquor traffic, inroduced by Mr. Post, is almost identical with the Nebraska statute. Mr. Post. did. this, desiring to conform to the suggestion

of the governor in his message.

The bill providing for the United States' paying the expenses of arresting and proseenting the violators of law in the territory adjacent to Oklahoma proper is of great importance. The arrest, prosecu-tion and conviction of one prisoner will cost Logan county \$1,500.

A large force of men were engaged in blasting out a huge rock pile in the Northern Pacific freight yards in the eastern part of the city. From fifty to seventy-five men were at work in the cut at the time. Fifteen men have been taken out dead, a number injured and still others came out alive. As rapidly as the mangled bodies are taken out they are carried to the hospital.
